Find It All At Home Base.SM

Elevate Your Craft

The READY plan empowers educators and parents to give our children an education that properly prepares them for their next big steps after graduation – college, career and adulthood. The plan is part of North Carolina's commitment to providing the tools we need to most effectively achieve that goal.

READY's Home BaseSM technology platform is an all-encompassing resource to elevate the craft of teaching and help our children succeed. **Think of Home Base as the starting point for success.**

Supporting Educators

You play the most important role in our students' learning. To help them reach their full potential, you need a tool to help you reach yours, instructionally and professionally.

Home Base was designed with input from your peers to ensure you have access to actionable student insight, teaching best practices and collaborating with your fellow educators across the state. It will set us apart from the rest of the nation as a model of how an intuitive, robust technology tool enables you to make more meaningful teaching decisions, which will greatly impact the success of your students.

We know each of you has your own methods and needs. That's why we built Home Base with you in mind, enabling you to use it to best meet your specific needs. Your input and involvement are vital to its success. The more you put in, the more you will get out. And even as it continues to grow and evolve, individualization and ease of use are always the top priorities.

Home Base is quite literally your home base, where you can easily find instructional and professional tools in one place – under one login. It's where you take attendance, post grades, create your lesson plans, and communicate with students, parents and other educators. You have access to assessment data, as well as the ability to create and deliver assessments. Professionally, you can earn Continuing Education Units through Home Base, as well as have access to professional development resources and educator evaluation data. All of this will be available in a suite of technology tools housed in one place.

This is merely skimming the surface of what Home Base is and will become. As it rolls out in phases, we will always be mindful of elevating your craft with the focus always on student achievement.

Helping Parents and Students Thrive

As a parent, you are critical to your child's success. Your involvement in his or her education not only supports your child but also teachers. In turn, Home Base supports you and your child with a technology tool that better prepares him or her for the next level, whether that's the next grade or the next big steps after graduation.

At its most basic, Home Base lets you view your child's grades, assignments and attendance. But it's much more robust than that. If your child is having problems with a particular subject or homework assignment, Home Base enables you to search for specific resources that can help him or her succeed. You can also reach out to other parents for help and insight, as well as communicate privately with teachers.

For students, Home Base can make the difference between doing well at school and excelling. In the broadest sense, you will gain valuable skills that set you apart by interacting with such an advanced technology tool. Not only will you have access to your schedules, class agendas, assignments, grades and test scores, but Home Base also is the hub where you store your work and turn in assignments. You will be empowered to collaborate and share helpful insight with other classmates, and you will have access to textbooks and other digital resources.

Our state is committed to helping better prepare our children for the world they will live in. As we all recognize, the skills they need today and tomorrow are much different than the ones needed yesterday. **Together we must embrace this change to elevate our students, and Home Base is a major step in making sure they will succeed.**
